Night*

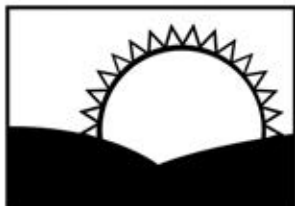

October

Pink in the Night

A display of pink lights around the area (sponsored by *Images of Hope*) to highlight *Breast Cancer Awareness Month*, which hopefully brings awareness to screenings for all cancers.

Images of Hope's mission is to serve people in the community who have cancer or have been affected by cancer. We accomplish our mission by promoting the Healing Arts at the *Marshall Cancer Resource Center* and other local venues. We offer free oncology massage, painting, Yoga, Pilates, local art classes, Equine Therapy, outdoor activities and much more to help ease the stress of dealing with cancer.

Help us with your support during the month, especially at the Art & Wine Festival on the third Saturday evening in October on Main Street in Placerville.
